

B1
cont'd

phosphorylated and unphosphorylated forms, which label gives a different detectable signal when the enzyme is phosphorylated from when it is unphosphorylated.

B2

24. (Amended) The process of claim 20 or claim 21, wherein the NDPK carries a fluorescent label.

B3
sub C5

31. (Amended) NDPK which is modified to carry a label in both its phosphorylated and unphosphorylated forms, which label gives a different detectable signal when the enzyme is phosphorylated from when it is unphosphorylated.
